

# Automatic qualitying of product data

Paris (75009), France

## listing.download.description

YZR is a SaaS tool that allows you to:

- Automatically standardize with artificial intelligence the data received by your partners, suppliers and internal data for the entire supply chain in a homogeneous and standard way
- Create a complete and accurate intelligence of product attributes, starting from descriptions to better qualify and categorize your products or measure them for more precise sales / stocks analyses
- Collaborate with your internal teams and suppliers / partners / customers by sharing the automatic qualitying of your data
