DevCSI, technology at the service of your m&eacut

Cosne-Cours-sur-Loire (58200), France

listing.download.description

Since 2009, DevCSI has been supporting companies in all sectors in their digital transformation. Whether through the design of tailor-made third-party solutions, training of technical aspects or the development of specific modules, we offer you both technical and métier expertise to enable you to equip yourself with secure solutions, ergonomic and adapted à your métier.

Spécialisés in rail digitalization for more than 12 years, we have designed and developed a complete solution of tra&eacedil;abilitá spécifiquee&e to the railway: PlugInRail.

Based on the GS1 EPC In Rail standards (of which we are co-signatories), the PlugInRail suite allows you to:
1. Identify your rolling stock and assets in a safe manner
2. Capture registration data in real time
3. Exploit this data by using dynamic dashboards or track occupancy plans
