

DIGITALIZATION MANAGEMENT & INTEGRATION OF B2

Clichy (92110), France

listing.download.description

Weexa is the result of the merger in May 2020 of the Groups Eumatech (specialized in the management of information flows, founded in 2002) and EDI XPERTS (specialized in the integration of data, founded in 2009).

With its 18 years of experience and 90+ specialized resources on 3 continents, Weexa is now a leading group in the digitalization of B2B flows (EDI/EAI).

Beyond this core of the market, Weexa has been able to develop new activities, namely, the integration of supply chain solutions such as WMS/TMS but also ERP such as Odoo, data integration in SAP and support activities and TMA (third-party application maintenance) in "nearshore" mode in different countries where the group is involved.

Weexa supports its customers all over the world through its international presence in 8 countries and thus covers the EMEA and APAC zones: France, United Kingdom, Czech Republic, Hungary, Japan, Thailand, Turkey and Morocco.

Weexa also intervenes punctually on the American continent where an establishment is ready in the near future.
