EDICOT

Thomery (77810), France

listing.download.description

We have been players in the EDI field for many years.

We have developed internal or external EDI solutions as well as e-commerce applications.
Our customers are from all sectors of activity: Retail, Automotive, Industry, Transport...
We are committed to using commercial RVA (Atlas 400, Allegro, GXS...) including AS2-type exchanges.

We develop our applications in C-to-NET: LogisEdicot: Capable of all commercial, logistics, financial (including invoices) in the front of a GesCom and/or autonomous.

We can offer you:

an EDI (or Web EDI) solution that will be in-house or not
to make specific developments (in terms of EDI messages) in relation to the needs of your customers.
All this is interfaced in relation to your information system (AS400...) and your customers' platforms.

We are special in EDIFACT, ANSI X12, TRADACOM, GENCOD and we process messages for these different standards:

Change of orders (Message, Standard and version of the company)
Returns (Message, Standard and version of returns)
Invoic version of billing - Our solution is approved by the IMB for tax registration of invoices)
accused of re-receipt of orders, return, billing (Message, Standard and version of the orders)
sales statistics (from Excel file) (Message, Standard and pre-grave; pre-cacise).
Our main customers in the industry and retail sector are:

Facom (all EDI externalised flows with us)
Comtrade
Logista (all EDI externalised flows with us)
Water -Ecarlate (all EDI externalised flows in our country)
Jasol
....

listing.download.benifits

We can act as: advice, pre-implementation of EDI (Internal/External) solution, specific developments.

As far as our research is concerned, we have been on the market since 1982.
We have been consulting, developing interchange agreements and technically, for more than 20 years, three associations:

EDONI: Bringing together players in the industry (Manufacturer and Distributors)
EFOVAD: Bringing together VADs (Camif, La Redoute, Manutan,...) and their suppliers
IDE@: Bringing together industrial players who want to change through a platform developed by us, their electronic catalogues.
We are active, professional and agrave; your cost.
Our speakers are totally autonomous, curious, rigorous and synth-affected.
Their EDI experiences range from 7 years to over 20 years in different sectors of activity (Automotive, Industry, Logistics/Transport, Retail...)

EDICOT is a signatory to the Interop-ability Charter of Electronic Billing Solutions: click here for more information.
