

EQUADIS

Carouge (1227), Switzerland

B2B / B2C DI

listing.download.description

EQUADIS, one of the European leaders in the development of data exchanges price has developed; a set of solutions allowing companies to re-enter the cost of processing data, to make the exchanges between the players in the supply chain (suppliers) more reliable. carriers, distributors). The Equadis solution can be simplified as a "corporate" solution that allows companies of all sizes to disseminate a single information information to their subsidiaries, agents and other consumers of the information produced and thus ensure a unique view.

EQUADIS has acquired expertise and experience available to its customers. They ensure the fluidity and good circulation of data throughout the chain of information ranging from the supplier's information systems to those of its customer and thus a time-saver in the operation of the product and tariff data.

listing.download.benifits

The features proposed by EQUADIS are:

Personalization of interfaces (Web, file processing) allowing management by supplier and by mee-tier

Data management and specific attributes to the supplier with data management (classification, special attributes-hellip;)

A centre for the distribution of your data; internal or external use depending on your organizations - Synchronization of a data to your subsidiaries (EQUADIS to EQUADIS)

Edition of your customers' Excel cards (all of the French distribution) respecting the format and specifics of each GMS customer (Food and Non-Food)

Management and data management in synchronization mode

Information sent to distributors

The Equadis solution is qualified by GS1 France in accordance with GS1 standards for both product and fare data.
