ETICONCEPT

Villebon-sur-Yvette (91140), France

listing.download.description

With 30 years of experience in all sectors and several hundred installations, we are constantly equipping the technology of our systems to meet the demands of the market.

Our wide range, volume and variety of wide-range applications, allow us today to respond to a wide variety of needs by offering innovative global solutions according to your constraints. We are mastering the entire identification solution (material and software) from the design to the installation, maintenance of the design and the supply of consumables.

Our different partnerships with the most recognized manufacturers in the market, our multiple skills (designer/engineer/manufacturer/software developer), allow us today to offer you adaptive solutions to your problems:

creation, printing or laying of labels

barcode reading as well as identification and tra-ccedil;

Our work is found in all the elements of a project:

"Student, analysis, technical feasible, specifications"

advice, proposal of standard or specific solutions

setting up on-site chosen solutions

User training

maintenance of the facilities.

We can therefore offer you either a standard solution or a solution in hand and personalised. To guarantee you the best performance on our products and services, we make your disposal the rapidity, the efficiency, the rigor of our commercial and technical teams. Our many customers (large groups or SMEs), our national presence (commercial and technical), our European partnerships ensure that you have the right choice of your IDification solution and the ability of today and for tomorrow.
