

INPOSIA

Montpellier (34000), France

listing.download.description

INPOSIA offers highly sophisticated EDI / B2B / B2G integration solutions based on services to meet international, complex and critical business requirements. We offer the right product for every size of company and every industry to seamlessly digitise all business processes, from our Cloud to our OnPremise tools.

Founded in 2010 in Karlsruhe (Germany), where our headquarters are located, we quickly became international with the establishment of offices in Turkey, France, Italy and Romania. Today, 95 employees are at the service of our customers.

Since 2015, we have been based in Montpellier in order to serve the French market more closely with specialised EDI / API / B2G / B2B solutions.

Our mission

Building digital bridges to shape tomorrow's digital future today - we pride ourselves on developing individual, tailor-made solutions that help companies optimise their business processes and thus network the world.

Our vision

At INPOSIA, we envision a secure and stable future - we help shape the path to digitalization.

What makes INPOSIA so special:

As a competent B2B partner, we are the EDI, B2B and data integration specialist. We develop high-quality and comprehensive business solutions for your complex needs. We operate internationally in all industries. We can therefore count many well-known customers from an international environment among our references.

24/7 multilingual support, our multilingual support is available 24 hours a day, 7 days a week. In the event of problems or disruptions that affect the productive operation of our customers, we provide proactive error analysis and troubleshooting. Our customer service centre is in constant contact with the customer and/or partner to ensure a smooth process.

Stable partnerships, we have been working for many years with numerous partners who are leading specialists in their field.

Individual IT solutions, at INPOSIA we know that every customer is different. That is why we develop individual and tailor-made solutions together with our customers/partners. We offer full support, full project assistance and 24/7 support.
