LAINPHARMA

Saint-Georges-de-Reneins (69830), France

listing.download.description

Founded in 2021, LAINPHARMA is a leading service provider that specialises in managing cold chain logistics for pharmaceutical companies. With our expertise in this field, our dedicated team will optimise distribution processes, ensuring efficient and reliable handling of temperature-sensitive healthcare products.

Leveraging our deep neural network, LAINPHARMA ensures precise temperature forecasts, safeguards product integrity, and enhances patient safety. Our services extend beyond cold chain expertise, encompassing data gathering and analysis, risk assessment and shipping lane qualification, supporting in decision-making and audits to improve cold chain management and minimise non-compliant shipments.

As a GS1 general member, LAINPHARMA wishes to adopt a constructive approach by supporting the development of standards , sharing experience and expertise, and promoting cooperation between organizations.

listing.download.benifits
