NUMLOG

Villiers-Saint-Frédéric (78640), France

listing.download.description

Created in 1993 The initiative of two Renault Group alumni, Numlog is a maker and creator of software solutions to secure data exchanges (technical, logistics) and intra- or inter-company network communications.

First of all, we have developed and marketed ft-Master, a technical data exchange solution. Our range of solutions and services has grown over time to cover all the needs for the security of data exchanges, secure access and communications.

Our offer now revolves around 4 major activities:

EDTi: the change of technical data (product: FT-Master)

EDI: the logistics data exchange (RVA HUB-Master)

Op-eacute;the T-eacute;coms: interconnection remote sites and internet top of bit (xDSL, fiber optic). Associated services: IP-based messaging, collaborative messaging, backup and distance...

Product Sheet: Multi-sector GDSN Tools, GS1, Eacute(Product and Tariff Sheet) and Underwriter: EasyPIM

Whatever your business sector, (automotive, mass distribution, mail order, business, etc.), you will find in Numlog a single contact, capable of:

Understand your technological, third-party and economic issues;

To assist you in implementing reliable, flexible and flexible solutions.

More than 400 customers trust Numlog, including Autoneum, Groupe Bourbon, Michel Thierry Group, Norma France, TAT Express, Valeo, Nexity, Relais d'Or Centrale, Distriboissons, Hamelin Brands,...

NUMLOG is a signatory to the Interop-ability Charter of Electronic Billing Solutions. Click here for more information.
