Seres

Ivry-sur-Seine (94200), France

listing.download.description

A subsidiary of Docapost and Bull, SERES is a major player in the digital transformation of companies in the field of the development of B2B exchanges and the automation of third-party processes.

Leader of the market for more than 20 years, our main mission is to support our customers by offering them safe, inter-efficient and progressive solutions that naturally integrate into their current environment and allow a gradual transition to a digital company in a raquo.

Our business is to provide companies with solutions and services to optimize, automate and ensure that they manage the flow of cash, regardless of the cost of application: electronic billing, automation of procurement processes, supplier management, completion of incoming documents Available in SaaS or software modes, our solutions enable rapid implementation and complete functional coverage, guaranteeing a quick return on investment.

Our design know-how, integration and success of high-availability flow management solutions enables us to deliver high-performance and efficient solutions to our customers. We have our own technical resources to develop, grow and operate the services offered by our clients. We have 3 Data Centers (2 in France and 1 in Spain), the latest technology in the rescued electrical supply, air conditioning, fire suppression and suppression, access control, video surveillance and internet access redundancy (BGP4). Our team is mobilized to meet; your service to respond to all your needs for sustainable and flow-related solutions while guaranteeing you excellence in service.

Seres has been able to make the most of its 20 years of experience to make its offer available according to the needs of its customers, new technologies, the evolution of standards and regulations in force on the market-based diffacutes. Its association as an active contributor to different standards and consultation bodies allows it to offer an ever-increasing range of services and technological expertise.

listing.download.benifits
