

# TOLEDE ERP / WMS / TMS

Saint-André-les-Vergers (10120), France

## listing.download.description

In 1980, TOLEDE® developed and markets integrated management software packages that address sectors with strong constraints, the availability of information and the quality of applications are crucial.

For many 40 years, in these different areas of activity, our goal has been to provide a complete solution, both managerial and technical, that effectively meets the daily needs of our customers. Easy to deploy, our solutions are equipped with intuitive and ergonomic operation as well as a rich and adapted functional coverage. Working with a single database, they interface with the main software of the market and are available in acquisition mode (on premise) or in service mode (Saas).

Today TOLEDE® equips more than 110 companies in France and Europe. A complete IT solution through a dedicated software with complementary system integrations, a technical and software solution, support and complete implementation (software, hardware architecture and network).

Our solutions work with the ORACLE® database. The ORACLE® certification of our integrators is a guarantee of a level of competence in terms of integration of solutions, associated services and support.

## listing.download.benefits
