listing.download.description

When making a purchase, consumers want to know where it was made, how it was made, and its impact on people and the planet. To deliver on these expectations and secure consumer trust, modern businesses must ensure their supply chains are transparent, connected, and compliant with consumer values.

Transparency-One provides a complete platform to transform the way businesses manage their supply chains. We help companies trace their products, increase supplier engagement, and ensure compliant, responsible sourcing. This leads to safer facilities, more sustainable and ethical products, reduced risks, and greater visibility.
• Supply Chain Transparency & Traceability: Map and track supplier, facility, and products from raw material to finished good
• CSR & Compliance Management: Capture certifications, documents, and assessments at any tier in the supply chain
• Real-Time Monitoring & Analytics: Analyze supplier compliance, sustainability KPIs, and supply chain risks
