

Welcome to the transparency era!

Paris (75008), France

listing.download.description

Crystalchain offers a SaaS blockchain processing platform to track products end-to-end, from raw materials to finished products, capturing relevant information in time to master all supply chain and trace all wires. The information is processed and analyzed according to the needs of our customers, and can be consulted in the form of dashboards for quality management, CSR or supply chain, or via QR code for communication to consumers.

listing.download.benifits

Our solution makes it possible to harmonize and facilitate the changes of information with partners, better control its suppliers, provide evidence to stakeholders, manage its CSR strategy, manage its supply chain, value its data, and protect its brand. A common core of functionality is enriched according to the needs, a module of operational excellence, BtoC communication, quality or CSR.
